This year we will be using an app called tripaid, your son will need to download it on to his phone.

It allows communication between teachers and students on the trip and it has location sharing so that teachers can see where students are and students can see where teachers are.

I will be sending out a parental consent letter so that we can use the app and there will be a code in the letter that your son should use to join the trip.

**The app must be open at all times during the trip.**
