Bexley Family Hub

The Family Hub aims to be a one-stop shop for families, offering a variety of resources and support in a single location. This makes it easier for families to access the help they need and provides a central point for connection and support within the community. The Erith Family Hub provides support to families from pregnancy through to 18 years.

The Family Hub is built on a simple but powerful vision: to support families as early as possible, reducing the need for statutory social work intervention. Recognising that early support can prevent small challenges from escalating, the Hub provides a welcoming, safe and supportive environment where families can access the help they need.

They offer:
• Friendly, one-to-one support and guidance
• Parenting, relationship and family advice, workshops and play sessions
• Connections to local services – all in one place
• Help with Health, development, Education and Wellbeing
